INFORMATION DISCLOSURE STATEMENT

NOTE: "Each individual associated with the filing and prosecution of a patent application has a duty of candor and good faith in dealing with the Office, which includes a duty to disclose to the Office all information known to that individual to be material to patentability as defined in this section." 37 CFR 1.56(a).

"Individuals associated with the filing or prosecution of a patent application within the meaning of this section are: (1) each inventor named in the application; (2) each attorney or agent who prepares or prosecutes the application; and (3) every other person who is substantively involved in the preparation or prosecution of the application and who is associated with the inventor, with the assignee or with anyone to whom there is an obligation to assign the application." 37 CFR 1.56(c).

NOTE: The "duty as described in § 1.56 will be met so long as the information in question was cited by the Office or submitted to the Office in the manner prescribed by §§ 1.97(b)-(d) and 1.98 before issuance of the patent." Notice of January 9, 1992, 1135 O.G. 13-25 at 17.

(complete the following, if appropriate)

Sections _____, respectively, have been continued on ADDED PAGE(S).

NOTE: "Once the minimum requirements are met, the Examiner has an obligation to consider the information." Notice of April 20, 1992 (1138 O.G. 37-41, 37).

1. Preliminary Statements:

Applicants submit herewith patents, publications or other information of which they are aware, which they believe may be material to the examination of this application and in respect of which there may be a duty to disclose.

The filing of this information disclosure statement shall not be construed as a representation that a search has been made (37 CFR 1.97(g)), an admission that the information cited is, or is considered to be, material to patentability or that no other material information exists.

The filing of this information disclosure statement shall not be construed as an admission against interest in any manner. Notice of January 9, 1992, 1135 O.G. 13-25, at 25.

2. Form PTO - 1449 (Modified):

NOTE: With respect to the list required by paragraph (b) of 37 CFR 1.98, the Notice of April 20, 1992 (1138 O.G. 37-41) points out that:

The list may not be incorporated into the specification but must be submitted in a separate paper. A separate list is required so that it is easy to confirm that applicant intends to submit an information disclosure statement, and because it provides a readily available checklist for the Examiner to indicate which identified documents have been considered. A copy of a separate list will also provide a simple means of communication to applicant to indicate the listed documents that have been considered and those listed documents that have not been considered. Use of Form PTO-1449, "Information Disclosure Citation" is encouraged."

NOTE: "An information disclosure statement may include two lists and two certifications...in situations where some of the information listed was cited in a communication from a foreign patent office not more than three months prior to filing the statement and some was not, but was not known more than three months prior to filing the statement." Notice of April 20, 1992 (1138 O.G. 37-41, 40).

NOTE: With respect to the Examiner's consideration of the Information Disclosure Statement, the Notice of April 20, 1992 (1138 O.G. 37-41) states:

"If information is listed in the specification rather than in a separate paper, or if the other content requirements *** are not complied with, the Examiner will notify applicant in the next Office Action that the information has not been considered. It should be noted, however, that no copy of a U.S. patent application is required to be submitted. ***Where a U.S. patent application is properly cited, the Examiner should obtain access to that file within the Office."

"Examiners must consider all citations submitted in conformance with the rules and this section and place their initials adjacent [sic] the citations on a list or in the boxes provided on a form PTO-1449. If the citations are submitted on a list other than a form PTO-1449, the Examiner may write "all considered" and his or her initials to indicate that all citations have been considered. If any of the citations are considered, a copy of the submitted list or form, as reviewed by the Examiner, will be returned to the applicant with the next communication. The original copy of the form will be entered into the application file. The copy returned to the applicant will serve both as acknowledgement of receipt of the information disclosure statement and as an indication that the references were considered by the Examiner. Forms PTO-326 and PTOL-37 include a box to indicate the attachment of Form PTO-1449.

"Information which complies with requirements as discussed in this section but which is in a non-English language will be considered in view of the concise explanation submitted *** and insofar as it is understood on its face, e.g. drawings, chemical formulas, in the same manner that non-English language information in office search files is considered by Examiners in conducting searches. The Examiner need not have the information translated unless it appears to be necessary to do so. *** The Examiner should not require that a translation be filed by applicant. The Examiner should not make any comment such as that the non-English language information has only been considered to the extent understood, since this fact is inherent.

"Since information is required to be listed in a separate paper rather than in the specification, there is no need to mark "All check" or "Checked" in the margin of a specification containing citations.

"If a statement fails to comply with the requirements as discussed in this section for an item of information, a line should be drawn through the citation to show that it has not been considered. The other items of information listed that do comply with the rules and this section will be considered by the Examiner and will be appropriately initialed.

"A citation listed on form PTO-1449 and considered by the Examiner in accordance with this section will be printed on the patent. A citation listed in a separate paper, equivalent to but not on form PTO-1449, and considered by the Examiner in accordance with this section will be printed on the patent if the list is on a separate sheet which is clearly identified as an information disclosure statement and the list lends itself to easy capture of the necessary information by the Office printing contractor, i.e., each item of information is listed on a single line, the lines are at least double-spaced from each other, the information is uniform in format for each listed item, the list includes a column for the examiner's initials to indicate that the information was considered. If a citation is not printed on the patent but has been considered by the Examiner in accordance with this section, the patented file will reflect that fact...."

WARNING: "Information which is cited or submitted to the Office in the parent application of a file wrapper continuing application under 37 CFR 1.62 will be part of the file before the Examiner and need not be resubmitted in the continuing application. Likewise, the Examiner will consider information cited or submitted to the Office in a parent application when examining a continuing application and thus this information need not be resubmitted unless applicant desires the information to be printed on the patent." Notice of April 20, 1992 (1138 O.G. 37-41, 37).

WARNING: While a copy of a non-English language item of information need not be submitted if it was previously submitted to or cited by the Office in a prior application, provided it is properly identified in this statement and this application relies on that earlier filing date under 35 U.S.C. 120, nevertheless, the requirement in § 1.98(a)(3) for a concise explanation of non-English language information would not be satisfied by a statement that a reference was cited in the prosecution of a parent application. The concise explanation must explain the relevant as presently understood by the person designated in § 1.56(c) most knowledgeable about the content of the information. Notice of January 9, 1992, 1135 O.G. 13-25 at 20.

This application relies, under 35 U.S.C. 120, on the earlier filing date of prior application Serial No. 60/011,895 filed 2/15/96 and Ser. No. 60/017,753 filed 5/15/96.

(complete the following, if applicable)

[] This application also relies, under 35 U.S.C. 120, on the earlier filing date of prior application Serial No. ____/____/____, filed ____/____/____.

The following references were submitted to and/or cited by the Office in the prior application(s) and, therefore, are not required to be provided in this application:

COUNTRY	PATENT NUMBER	PATENTEE/INVENTOR

5. Cumulative Patents or Publications:

NOTE: "When the disclosure of two or more patents or publications listed in an information disclosure statement are substantially cumulative, a copy of one of the patents or publications may be submitted without copies of the other patents or publications provided that a statement is made that these other patents or publications are cumulative." 37 CFR 1.98(c)

NOTE: "The Examiner will then consider only the patent or publication of which a copy is submitted and will so indicate on the list or form PTO-1449 submitted, e.g., by crossing out the listing of the cumulative information." Notice of April 20, 1992 (1138 O.G. 37-41, 38).

STATEMENT

_____ is cumulative of the following patents or publications listed on Form PTO-1449 (Modified):

COUNTRY	PATENT NUMBER	PATENTEE/INVENTOR

In accordance with 37 CFR 1.98(c) a copy of only _____ is being submitted with this Information Disclosure Statement.

6. Copies of Listed Information Items Accompanying This Statement:

NOTE: 37 CFR 1.98(a)(2) requires that any information disclosure statement filed under § 1.97 shall include: "A legible copy of (i) each U.S. and foreign patent; (ii) each publication or that portion which caused it to be listed; and (iii) all other information or that portion which caused it to be listed, except that no copy of a U.S. patent application need be included...."

NOTE: The wording in § 1.98(a)(2)(iii) makes it clear that the requirement to submit a copy of each item of information listed in an information disclosure statement does not apply to

the citation of a U.S. patent application. Notice of January 9, 1992, 1135 O.G. 13-25 at 14.

Legible copies of all items listed in Form PTO-1449 accompany this information statement.

(complete the following, if applicable)

7. Concise Explanation of Non-English Language Listed Information Items:

NOTE: "A concise explanation of the relevance, as it is presently understood by the individual designated in § 1.56(c) most knowledgeable about the content of the information of each patent, publication, or other information listed that is not in the English language shall be included in any information disclosure statement filed under § 1.97. The concise explanation may be either separate from the specification or incorporated therein." 37 CFR 1.98(a)(3).

NOTE: "The explanation required is limited to the relevance as understood by the individual designated in § 1.56(c) most knowledgeable about the content of the information at the time the information is submitted to the Office." Notice of January 9, 1992, 1135 O.G. 13-25 at 14.

NOTE: "Where the information listed is not in the English language, but was cited in a search report by a foreign patent officer, the requirement for a concise explanation of relevance is satisfied by submitted an English language version of the search report." Notice of January 9, 1992, 1135 O.G. 13-25, at 14.

NOTE: "The concise explanation requirement for non-English information may be met by submission of an English language version of the search report indicating the degree of relevance found by the foreign office." Notice of January 9, 1992, 1135 O.G. 13-25 at 20.

WARNING: "The requirement in § 1.98(a)(3) for a concise explanation of non-English language information would not be satisfied by a statement that a reference was cited in the prosecution of a parent application." Notice of January 9, 1992, 1135 O.G. 13-25 at 20 (emphasis added).

7A. Concise Explanation of Non-English Language Listed Information Items - EPO Search Report:

8. Translation(s) of Non-English Language Documents:

NOTE: "If a written English translation of a non-English language document, or portion thereof, is within the possession, custody or control of, or is readily available to any individual designated in § 1.56(c), a copy of the translation shall accompany the statement." 37 CFR 1.98(c).

NOTE: "The Office does not intend to require translations unless they have been reduced to writing and are actually translations of what is contained in the non-English language information. Applicants should note, however, that most examiners do not have the ability to understand information which is not in English and that the Office will not routinely translate information submitted in a non-English language. The Examiner will consider the information insofar as it is understood on its face, e.g., drawings, chemical formulas, English language abstracts, but will not have the information translated unless it appears to be necessary to do so. Applicants are required to aid the Examiner by complying with the requirements for a concise explanation in § 1.98(a)(3) for information submitted in a non-English translation." Notice of January 9, 1992, 1135 O.G. 13-25 at 21.
